# Hot Water Without the Wait!

Every year billions of gallons of water are wasted as we turn on the faucet and then wait for hot water to arrive. Save water by eliminating the wait for hot water to reach the tap. Simply tap into the cold water line and install the Ariston Pro Ti directly under the sink, without any need for costly recirculating lines and pumps. And when you want to eliminate the wait for hot water but need more volume, simply install the Ariston Pro Ti in-line with a larger water heater.

## Easy Installation

Simply tap into the cold water line and install the water heater directly at the sink. All Ariston Pro Ti GL models plug into a standard 120-volt outlet. And when you want to eliminate the wait for hot water but need more volume, install the Ariston Pro Ti water heater in-line with a larger hot water source.

Technical Specifications			
Ariston Pro Ti	GL2.5Ti	GL4Ti	GL8Ti
Tank Volume	2.75 gallons	3.85 gallons	7 gallons
Dimensions	14" x 14" x 10.25"	14" x 14" x 12.25"	17.5" x 17.5" x 14.5"
